

## Team Involvement in Demonstration

|                      |                                                                 |
|----------------------|-----------------------------------------------------------------|
| <b>Date</b>          | 03 July 2026                                                    |
| <b>Team ID</b>       |                                                                 |
| <b>Project Name</b>  | Predicting Human Development Index (HDI) Using Machine Learning |
| <b>Maximum Marks</b> | 1 Mark                                                          |

### Team Involvement in Demonstration:

This document records the active participation and responsibilities during the project demonstration. It highlights the contributions made throughout the design, development, testing, documentation, and presentation of the HDI Prediction System.

| S.No | Team Member Name       | Role in Demo              | Section Presented                               | Contribution Summary                                                                                                                                                   | Participation (Active / Passive) |
|------|------------------------|---------------------------|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| 1    | Swapna Beldhari        | ML Engineer & Presenter   | Live App Demonstration, Testing & Validation    | Handled model evaluation and selection, designed and ran unit tests (test_app.py), built custom visualizations, and demonstrated the live application and test suites. | Active                           |
| 2    | Jaswanth Yadav Keerthi | Web Developer & Presenter | Solution Overview, Machine Learning Explanation | Implemented the Flask backend routing, model integration, and prediction endpoints; explained the ML pipeline coefficients, $R^2$                                      | Active                           |

|   |                 |                       |                                            |                                                                                                                                                                                                |        |
|---|-----------------|-----------------------|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
|   |                 |                       |                                            | scores, and preprocessing logic.                                                                                                                                                               |        |
| 3 | Sai Kiran Bandi | Moderator & Presenter | Introduction, Future Roadmaps & Conclusion | Coordinated the project planning, requirements analysis, designed the premium glassmorphism dark-mode UI, prepared all documentation, and presented the intro and future scalability sections. | Active |

### . Team Action Plan

The presentation transitions smoothly between technical and visual segments:
